Be SMART...!

Champions aren't made in gyms. Champions are made from something they have deep inside them – a desire, a dream, a vision. They have to have the skill and the will. But the will must be stronger than the skill. Successful professionals **thrive** in the same manner. We all have natural talents. If we use that talent to set our goal in life, we can easily get success in life. We shall not achieve our goals if we do not take action to achieve them.

Setting goals has two valuable assets - a sense of originality and a stepping stone to **illuminate** the path. Goals put one **at the helm of** life; pursuing them acknowledges a better future situation. They help to **steer** a course of life rather than simply drifting along and letting things happen.

Setting goals may appear easy, but, for some, it is quite challenging. Fear of failure may be avoided in the absence of any goals. After all, one has to decide what one wants to achieve in the end. To accomplish goals, experts recommend a five step approach.

SMART goals are a methodology of thinking that helps people reach success. SMART stands for specific, measurable, achievable, realistic and time-bound.

SMART goals have a specific rubric:

Specific: Involves identifying a specific area for improvement. The more specific the area, the more refined the achievement of one's goal can be. It makes it easier to set parameters and work towards the goal. For example, if it is building a house, what exactly is the capacity required and how long can it stretch?

Measurable: Quantifying goals provides specific ways to track progress against goals. This makes it easy to **benchmark** performance throughout the goal period, including areas to improve. While playing

- **thrive** : prosper

- **illuminate** : enlighten

- **at the helm of** : in charge of

- **steer** : channelize

- ♦ Why do some people find setting goals, a challenge?

- **rubric** : a guideline or a heading

- ♦ How does quantifying goals help us?

- **benchmark** : standard by which something can be measured/judged

football, one's exact role and position has to be clearly defined.

Achievable: Setting goals that can be completed in the designated period of time. Often, these goals may act like stepping stones to help meet broader goals that further define a career. As students, we can't become a President, a Prime Minister, but can hope to reach those heights in future.

Realistic: It is important to create goals that are within one's current skill set or area of expertise. Building expertise takes time, so expecting to become an expert in a short amount of time is unrealistic. Being realistic will make it easy to be successful at attaining goals. If **defensive** and not aggressive, the goal perhaps lacks realism. We must have the clear picture in mind and must have the ability to **adhere** to that picture.

Time-bound: Establish time parameters around each goal, as it will help increase focus and accountability. To reduce weight we know how to go about it. But without **consistent** time-bound action, it never becomes a reality. It may be exercise, diet and stress-free thoughts. All these have to be practised and implemented without hesitation, doubt or indifference, but within a deadline.

Visions, wishes, intentions and dreams are all valuable. They spark off imagination and encourage us to define where we want to reach. In order to get there, however, we need to bring life images, **down to earth** and plan to **execute** our **strategies**. The quality and quantity of energy we put forth, directly impact the results. Life is something like a trumpet. If we don't put anything in, we can't get anything out.

Success is a walk in the dark. Finding the right footing, precisely mastering the skills and getting to the next place, all depend on how we approach and tackle the problem. The best way to get from where we are, to where we want to be is to find the footing of our next step. When we take the next step, it should support and hold us without a crack.

◆ What factor is unreal, while setting goals?

● **defensive** : justificative

● **adhere** : bind

● **consistent** : steady

● **down to earth** : real, practical

● **to execute** : to carry out

● **strategy** : plan of action

• Gerund :

When the -‘ing’ form of a verb is used as a noun, it is known as a **gerund** a **verbal noun**. For example, The fighting went on. Here, we see that the -‘ing’ form of the verb ‘fight’ is used as a subject in ‘The fighting went on’. It does a work of a noun.

Read the following examples of gerunds:

- Gardening is an art.
- Cooking is a science.
- I enjoy reading poems.
- I like reading more than writing.

- Rewrite the above sentences using other appropriate gerunds in place of the given here.

• Infinitives :

Sometimes the form of a verb in a sentence names the action but does not change according to tense, number or person. Such a form is known as a **non-finite form** or an **infinitive**. An infinitive is used with or without ‘to’.

Examples: How did people first begin **to drink** tea? Can you **name** the beverage?

Underline the infinitive in the following sentences.

- It was funny to read words that stood still.
- Can I read the book?
- To be or not to be - that is the question.

• **Finite :**

Underline the verbs and choose the correct option from the brackets.

- | | |
|--|---|
| <p>(a)</p> <ul style="list-style-type: none"> • Preeti even wrote about it.
(present tense/past tense) • Today Sanjay found a new book.
(present tense/past tense) • Rahul finds Maths easy.
(present tense/past tense) | <p>(b)</p> <ul style="list-style-type: none"> • Preeti was scornful.
(singular/plural) • This is the old kind of school.
(singular/plural) • They are sportsmen.
(singular/plural) |
|--|---|

Thus, we see that verb forms show tense, number, etc. Here, the verb form changes according to the subject. A verb form which is decided by and changes according to the subject of the sentence is known as a **finite verb**.

Example: ‘You **are** very kind.’ If the subject ‘you’ is changed to ‘she’, the sentence will be ‘She **is** very kind.’

Now change the verb form according to the change in the subject.

- I don’t know : Change ‘I’ to ‘She’.
- My father knows : Change ‘My father’ to ‘We’
- I am following in your footsteps : Change ‘I’ to ‘He’

Underline the gerund/present participles/infinitive.

- (a) Setting goal may appear easy, but it is quite challenging.
- (b) Quantifying goals provide specific ways to track progress.
- (c) It is important to create goals that are within a current skill set or area of expertise.
- (d) We need to bring down life images down to earth and plan to execute our strategies.
- (e) Finding the right footing, precisely mastering the skills and getting to the next place, all depend on how we approach and tackle the problem.

Classify the following words in their respective columns.

tackle, trumpet, directly, execute, aggressive, natural, absence, exactly, achieve, clearly, imagination, precisely, create, important, expert, specific. of, if, and, oh, from, we, but, it.

Noun	Adjective	Adverb	Verb	Pronoun	Preposition	Conjunction	Interjection

• **Changing word class :**

Sometimes, the word class of a word changes without adding any prefix or suffix. For example, ‘run’ is used as a verb. So, ‘verb’ is its word class in ‘I can **run** faster than him.’ But when ‘run’ is used as a noun, its word class changes. For example, India has to score ten more runs to win the match.’ This is called a change of word class. Look at the following examples. Change of word class from verb to noun :

‘I **doubt** if I can write as fast as you can’ (verb). I have a **doubt** about this topic (noun). Similarly : laugh, walk, catch, throw, turn

Change of word class from noun to verb :

‘Remove the potato **peels** (noun). **Peel** the potato (verb).

‘She works as a **nurse** (noun). You have to **nurse** a patient till he/she recovers (verb).
