7. Read the passage carefully and answer the questions that follow :

$$4 \times 1 = 4$$

The sun's energy is very strong. It loses a lot of its strength by the time it goes into a plant. When we eat plants, we get more of the sun's energy than when we eat animals. That's why it is good to eat fruits and vegetables. When an animal eats a plant, the energy is less strong. The animal also used its energy to find the plant to eat. When a second animal eats the first animal, it gets even less energy than the first animal got. The second animal used a lot of energy to chase its prey. Like a car that has to be filled with gasoline, living things have to eat again and again. Instead of gasoline, living things use food as fuel.

*Questions :*

- a) Why do we get more energy from eating vegetables than that we get from eating meat ?
- b) How does the sun lose its energy ?
- c) Why does the second animal get less energy than the first animal ?
- d) Why do living things need to eat again and again ?

OR

Write a précis of the following passage and give a suitable title : 4

There is a growing body of research that indicates that excessive social media use can have a negative impact on mental health. Studies have shown that people who spend a lot of time on social media platforms may have an increased risk of developing conditions such as depression, anxiety and low-esteem. It is important to be aware of social media use and take steps to limit time spent on these platforms to support good mental health.
