MACQUARIE
University
SYDNEY · AUSTRALIA

YOU *us*

When your potential is multiplied
by a university built for collaboration,
anything can be achieved.

That's **YOU** to the power of *us*

“The intensive support I received at the College was the greatest life changer for me, as I was initially anxious about university concepts, and unsure about what I’d enjoy studying for my bachelor degree. My teachers helped me gain confidence, especially with regard to my academic performance. The opportunities provided by Macquarie make a genuine difference – the uni’s motto ‘You to the power of us’ is really proven. I’m just about to finish the Bachelor of Professional Accounting, which I studied because I’m interested in tax, and financial and management accounting. I’m now seeking a role at an accounting firm to build my experience while I pursue postgraduate study, which will include an MBA a bit further down the track.”

Catherine

INTENSIVE PROGRAM

DIPLOMA OF COMMERCE

BACHELOR OF PROFESSIONAL ACCOUNTING

(**YOU**)^{*us*}

At Macquarie, we have discovered the human equation for success. By knocking down the walls between departments, and uniting the powerhouses of research and industry, human collaboration can flourish. This is the exponential power of our collective, where potential is multiplied by a campus and curriculum designed to foster collaboration for the benefit of everyone. Because we believe when we all work together, we multiply our ability to achieve remarkable things.

That's **YOU** to the power of *us*

College pathways to a Macquarie degree

FIND YOUR UNIQUE PATH

* If you meet specific internal articulation requirements, you may progress directly to a bachelor degree. If you don't achieve these requirements, you may progress to a diploma.

Start your journey towards a bachelor degree

ACQUIRE THE KNOWLEDGE TO SUCCEED IN YOUR STUDIES

GUARANTEED FAST ENTRY INTO YOUR UNDERGRADUATE DEGREE

Developed specifically to meet Macquarie's entry requirements, our pathway programs are designed so that on successful completion, you can seamlessly transition to the first or second year of your undergraduate degree, as long as you meet the entry requirements.

BE A MACQUARIE UNIVERSITY STUDENT FROM DAY ONE

As a student at our College, you're a Macquarie University student from day one. You're instantly part of our vibrant university community with countless opportunities to connect with like-minded people.

PROGRAM STRUCTURE

If you're undertaking an undergraduate certificate or diploma, you'll study the same units as first-year undergraduate students, but in smaller classes with hands-on support. This helps ensure your success as a university student.

After you pass four units of an undergraduate certificate – with the required marks – you can go straight into the second session of your undergraduate degree. This means you can be studying your dream degree within six months.

After you pass eight units of a diploma – with the required marks – you can go straight into the second year of your undergraduate degree. If you work hard, it's possible to do this in eight or nine months.

The Standard Foundation Program and the Intensive Program will quickly increase your subject knowledge and academic skills to the level you need for success in your undergraduate degree. You'll study two units each term, which allows you to deeply engage with your chosen area of interest. Each term is seven weeks in duration, comprising six teaching weeks and an exam period.

SMALL CLASSES

Our small class sizes ensure you get personalised support from our highly qualified teachers, and our specially designed teaching and learning activities will improve your university-level study skills and academic knowledge. You'll have some of Australia's best lecturers teaching you as soon as you join Macquarie.

ADJUSTMENT FACTORS

You may be eligible to receive adjustments – points that can be added to your ATAR or average mark – through our adjustment factor schemes.

mq.edu.au/adjustment-factors

A GREAT INVESTMENT

If you're an Australian or New Zealand citizen, an Australian permanent resident or a holder of a permanent Australian humanitarian visa and you undertake an undergraduate certificate or diploma, you're regarded as a Commonwealth supported student. If you undertake our Standard Foundation Program or Intensive Program, you're recognised as a domestic fee-paying student. HECS-HELP and FEE-HELP loan schemes are available for eligible students.

*"I didn't get the ATAR I needed for the degree I wanted to study, but because Macquarie was the only uni I wanted to study at, the College was an easy choice. My course also offered a direct pathway into a degree I'd been interested in since Year 9. **The College eases you into university and offers a lot of support, with smaller classes that ensure all students get the same attention on their learning and achievements.** There were several teachers who really took an interest in my learning and encouraged me to get the good marks I got. I'm now undertaking the Bachelor of Marketing and Media because I'm really interested in why people buy things and how companies use that information to market towards different groups. Every time I see a good ad I think, 'Hey that worked on me, I'd buy it!' and I'm keen to understand why."*

*"I didn't get the ATAR required for my degree, so I decided to undertake a diploma through the College to get me up to speed. **The College offers many benefits: firstly, my teachers provided me with a really high level of support, both in terms of my studies and with fitting into university life; and secondly, being able to go straight into the second year of my degree was awesome as it meant I'd graduate at the same time as my friends.** I'm now undertaking the Bachelor of Engineering (Honours) in Mechatronic Engineering. Mechatronics is a combination of all the engineering disciplines, so I've been able to dip my feet in every category and get a feel for what I like best. So far, the best thing has been working with robots and seeing how they can benefit people and progress the world."*

“Studying at Macquarie University College was an amazing part of my university experience. It’s a great facility, and the teachers are incredibly supportive and helpful. They really inspired me to chase after what I want and to do my best all the time. I’m now undertaking the Bachelor of Information Technology as I’m really interested in all things tech, such as web technology, cybersecurity, software development and so much more. My current career goal is to land a job at a place like Canva, maybe in a role like solutions architect or frontend developer. But as technology is an ever-growing and exciting field that has no end in sight, I have so many options in front of me.”

Zahlia

STANDARD FOUNDATION PROGRAM
 BACHELOR OF INFORMATION TECHNOLOGY

*"I decided to study commerce and finance halfway through my first year as an apprentice mechanic. I didn't have the ATAR required for my degree, so I completed an undergraduate certificate and a diploma through the College. **I received a lot of support from my teachers and classmates, and the learning hub really helped when it came to assignments and exam study. I spent a lot of my time there going through class notes and problem sets, and the teachers there were very friendly and helped a lot with revision.** I'm now undertaking the Bachelor of Commerce as I've always been interested in learning about financial markets, but at the same time I wanted the flexibility to be able to learn about other things, such as marketing and management. The Bachelor of Commerce is giving me that flexibility."*

How to apply

WHAT ARE YOU WAITING FOR?

Applying for a uni degree is a big step, and it can seem a little overwhelming at times. We get this, so we've taken all the tricky stuff and distilled it into four easy steps.

1. SELECT

Choose the course you'd like to study

Check out the undergraduate certificates, diplomas, and foundation and intensive programs in this guide. Visit mq.edu.au/college

2. REVIEW

Review your eligibility

If you're unsure, contact us at Future Students on (02) 9850 6767 or at futurestudents@mq.edu.au

3. APPLY

Apply for your chosen course through UAC

Visit uac.edu.au for more information.

4. OFFER

If you receive an offer

Congratulations and welcome to Macquarie!

You'll need to accept your offer at mq.edu.au/ug-secure and complete your enrolment online.

PHOTOS: Morris McLennan, Vanessa Sanchez, Joanne Stephan

This document has been prepared by Group Marketing, Macquarie University. It is correct as at the date of publication, but the University reserves the right to vary or withdraw any general information, course(s) and/or unit(s), fees, and/or the mode or time of offering its course(s) and unit(s) without notice. Prospective students are advised to check whether there has been any variation or withdrawal affecting any course(s) in which they wish to enrol with Future Students at futurestudents@mq.edu.au or (02) 9850 6767 before proceeding.
