**Read the given passage and answer the following questions:**

The devastation of Delhi after Nadir Shah's invasion was described by contemporary observers. One described the wealth looted from the Mughal treasury as follows: 'Sixty lakhs of rupees and some thousand gold coins, nearly one crore worth of gold-ware, nearly fifty crores worth of jewels, most of them unrivalled in the world, and the above included the Peacock throne. Another account described the invasion's impact upon Delhi: (those) ... who had been masters were now in dire straits; and those who had been revered couldn't even (get water to) quench their thirst. The recluses were pulled out of their corners. The wealthy were turned into beggars. Those who once set the style in clothes now went naked; and those who owned property were now homeless ... The New City (Shahjahanabad) was turned into rubble. (Nadir Shah) then attacked the Old quarters of the city and destroyed a whole world that existed there.'

- (10.1) Who turned Shahjahanabad into a heap of rubble? (1)  
(10.2) 'Those who had no dearth of landed property have now become homeless...' Explain the meaning of the above statement. (1)  
(10.3) Write any two effects of Nadir Shah's invasion. (2)

**Read the given passage and answer the following questions:**

The **atmosphere** is the thin layer of air that surrounds the earth. The gravitational force of the earth holds the atmosphere around it. It protects us from the harmful rays and scorching heat of the sun. It consists of a number of gases, dust and water vapour. The changes in the atmosphere produce changes in the weather and climate. Plant and animal kingdom together make **biosphere** or the living world. It is a narrow zone of the earth where land, water and air interact with each other to support life.

- (11.1) What is the atmosphere made of? (1)  
(11.2) What is meant by biosphere? (1)  
(11.3) How is the atmosphere beneficial to us? (2)

**Read the given passage and answer the following questions:**

Every state in India has a Legislative Assembly. Each state is divided into different areas or constituencies. From each constituency, the people elect one representative who then becomes a Member of the Legislative Assembly (MLA). You would have noticed that people stand for elections in the name of different parties. These MLAs, therefore, belong to different political parties. How do people who are MLAs become ministers or chief minister? A political party whose MLAs have won more than half the number of constituencies in a state can be said to be in a majority. The political party that has the majority is called the ruling party and all other members are called the opposition.

- (12.1) What is a constituency? (1)  
(12.2) What are the people elected from each constituency for the Legislative Assembly of the State called? (1)  
(12.3) What is the meaning of ruling party and opposition party in the formation of state government? (2)

13	<p><b>Read the given passage and answer the following questions:</b></p> <p>Land is among the most important natural resources. It covers only about thirty per cent of the total area of the earth's surface and all parts of this small percentage are not habitable. The uneven distribution of population in different parts of the world is mainly due to varied characteristics of land and climate. The rugged topography, steep slopes of the mountains, low-lying areas susceptible to water logging, desert areas and thick forested areas are normally sparsely populated or uninhabited. Plains and river valleys offer suitable land for agriculture. Hence, these are the densely populated areas of the world.</p> <p>(13.1) Land is an important natural resource, why? (1)  (13.2) Why is population found more in plains and river valleys as compared to desert and densely forested areas? (1)  (13.3) Why is the distribution of population in the world unequal?
